

# PERSPECTIVES ON THE FUTURE OF THE EU

What are the prospects for further European integration? How to address concerns of legitimacy and democracy in the EU? What is the status of common values inside the Union and how does that affect the EU's global role? This winter, the Swedish Institute for European Policy Studies (SIEPS) and the Swedish Institute of International Affairs (UI) will gather key perspectives on the future of the European Union in a seminar series.

The series will result in an anthology to be published in the spring. Collecting perspectives from leading analysts on European affairs, it aims to contribute to the discussions about the EU after Brexit and ahead of the elections to the European Parliament in May.
